

JUSTICE GROUP WEBSITE

The MCJC Justice Group has developed a website to provide information essential for becoming educated and empowered citizens. The site provides resources to enhance knowledge and skills necessary for creating a renewed and healthy democracy.

This work-in-progress-site begins with a focus on four areas: Paradigms; Democracy, Civil Rights/Civil Liberties, and Election Integrity. Some sections provide basic information such as relevant vocabulary and important documents like the Constitution; while others focus on significant websites, communities, books and media. Throughout are essays, books, videos and periodicals with new ideas, experiences and actions by individuals and communities devoted to the healing and evolution of our world.

Please join in this critical effort by learning and exploring with us at: mcjjusticegroup.com
